Transform your Microsoft 365 public cloud into a private one via eperi Gateway

ABOUT EPERI GATEWAY FOR MICROSOFT 365:

Our software delivers data-centric security, empowering customers with GDPR-compliant privacy to solve data residency problems and fulfill legal requirements. Our patented multicloud approach provides a trustworthy and compliant digital environment.

Ensure Microsoft 365 compliance

"The eperi Gateway enabled us to make our cloud-first strategy legally compliant. Today, we use Microsoft 365 collaboration capabilities in our company, across all devices."

— Frank, Moerdel, Jamestown US-Immobilien GmbH

WHAT WE OFFER

One of the world's leading solutions, eperi Gateway enables legally compliant Microsoft 365 usage. eperi Gateway can transparently encrypt Microsoft 365 email and calendar entries, as well as protect files and Teams chat messages.

On-premises, in the cloud, or within hosted environments, the solution provides an invisible security solution for Microsoft 365 that enables its users to seamlessly benefit from its full range of capabilities.

All sensitive data is encrypted before it leaves your business and helps you retain sole control over both keys and encryption. This ensures global compliance with legal requirements, even in highly regulated sectors such as healthcare and banking. eperi is the one-off answer to security concerns in multicloud environments.

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simply, monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
